### Torraspapel Announces a Price Increase on Carbonless Paper Effective July 2011

5/27/2011

Torraspapel, part of the Lecta Group, announces a price increase on its [carbonless paper](#) range, effective 4th July 2011.

The cost pressure on raw materials and other manufacturing inputs, especially energy, remain extremely high, making this price increase inevitable.

The price increase will be from 5 to 7%, depending on product presentation and country.

Our customers will be informed personally by our sales teams, who will provide any further information they might require.
